

The ANSES is the French Agency for Food, Environmental and Occupational Health & Safety

ANSES contributes to ensuring the **human health and safety** in the fields of **environment, work and food**

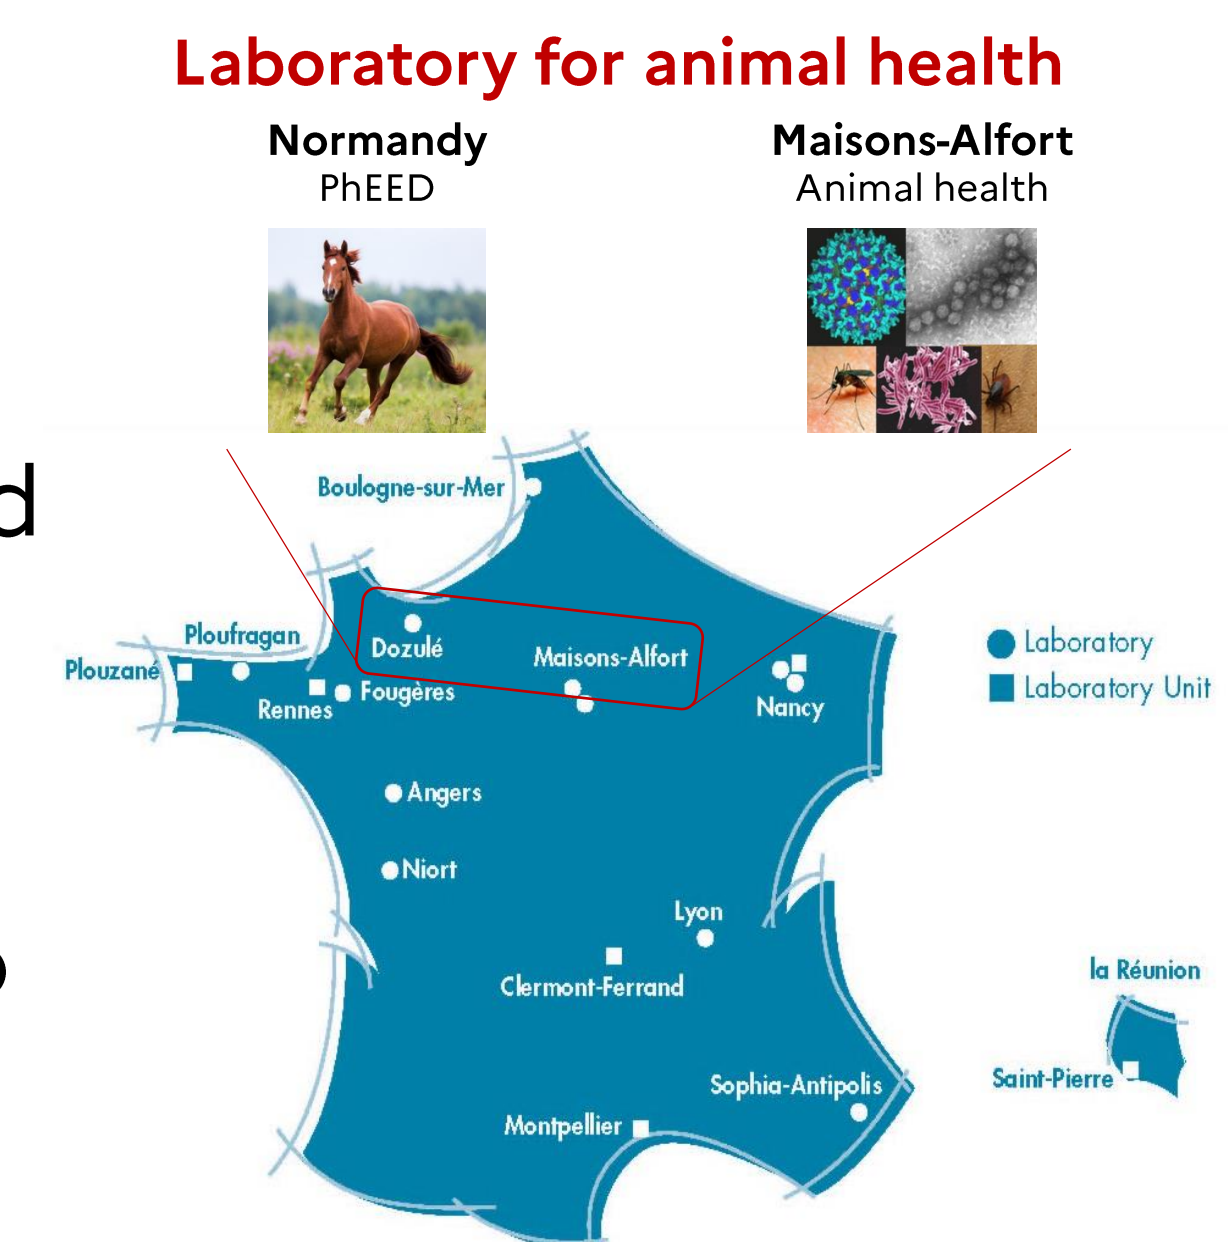

As well as:

- Protecting **animal health** and **welfare**
- Protecting **plant health**

✓ **9 laboratories** conducting **reference and research** activities on food safety, animal health, and plant health

✓ In **16 locations** to ensure a territorial presence to be close to the field

The ANSES is involved in the **control of equine diseases** through following references mandates:

Diseases	France 	European Union 	World Organisation for Animal Health (Founded as OIE) 	Contacts
African horse sickness	X			corinne.sailleau@anses.fr
Anthrax	X			claire.ponsart@anses.fr
Brucellosis	X	X	X	claire.ponsart@anses.fr
Contagious Equine Metritis	X	X ¹	X	sandrine.petry@anses.fr
Dourine – Equine Surra	X	X ¹	X	laurent.hebert@anses.fr
Equine Herpes virus	X			delphine.froger@anses.fr
Equine Infectious Anaemia	X	X ¹		jose-carlos.valle-casuso@anses.fr
Equine Viral Arteritis	X	X ¹		jose-carlos.valle-casuso@anses.fr
Glanders	X	X ¹	X	karine.laroucau@anses.fr
Vesicular stomatitis	X			labib.bakkali-kassimi@anses.fr
WNV and exotic encephalitis	X	X ¹		gaelle.gonzalez@anses.fr
Necropsy (reference without mandat)	X			peggy.moreau@anses.fr

¹ Mandate of European Union Reference Laboratory for Equine diseases (other than African Horse Sickness): stephan.zientara@anses.fr

Reference activities

- Diagnosis & Expertise
- Epidemiological studies
- Interlaboratory proficiency tests
- Reagents supply
- Training
- ...

Provide a framework to ensure the reliability of official controls

Research activities

- Development and validation of **diagnostic tools**
- Pathogens characterization (**WGS**)
- Study of the **physiology** of the pathogens
- Research of innovative **treatments**
- Pathobiology
- ...

Improving general knowledge on these diseases

ANSES teams are open to international partnerships!
